

Easter nests

(remember to wash your hands)

You need

- Cake cases
- 300g chocolate
- About 230g breakfast cereal (cornflakes, rice crispies etc.)
- Packet of Mini Eggs

Put cake cases in muffin tray

Break up chocolate into glass bowl and melt in microwave
(ask an adult to help you)

It will take around 90 seconds and you'll need to stir it part way through

Weigh cereal into a mixing bowl

Add chocolate to mixing bowl

Mix cereal and chocolate until cereal is well coated with chocolate

Fill cake cases with mixture

Add 2-3 mini eggs to the mounds of the mixture to look like a nest

Chill in fridge for 30 mins, then they are ready to eat.
